Tampa is having a hard struggle with the "get big-quick" propositions. They can't hold the Fort.

An error has been discovered. There are only 44,000 fraudulent names on Philadelphia's registration list.

The oyster month will soon be here and the luscious bivalves will be greeted by many who are tired of bacon, salt fish, etc.

The liberal religionists are holding a session in Geneva, Switzerland, and it is hoped they will agree on an everlasting peace.

One man says Roosevelt is working as the ally of the Japs and another says he is working for Russia. But neither is right.

Someone suggests a trust president for King of Norway. Nonsense. The country is too small to hold the salary one would require.

If John D. Rockefeller should undertake to stop wars by using money, Cuba would have Venezuela flooded with tainted money inside of a month.

Mayor Woodward of Atlanta can get all the endorsement he wants from the best men at Toledo. He tipped every one of the outfit that came his way.

The landlords of Russia must have the pound of flesh from the tenants. Whether there is an ounce left for the poor peasants to subsist on is another matter.

In the New England States when a man strayed a young lady he was fined by a Providence, R. I., justice for "revelling." In Georgia for a similar offense a man was fined \$5 for "loitering."

The house problem seems to be the main topic in Gainesville. Of all the "houses" built in the past year, not one is for rent. The building boom has not relieved the situation.

The city of Pensacola is undecided as to the constitutionality of the new city law passed by the council of that municipality. The lawyers don't seem inclined to settle it out.

The farmers of Florida are better off than those of California, having a smaller per cent of debts on their farms. With the low price of land, crops the soil will produce, and the amount of fuel and clothing used, there is a better chance for the modest means in Florida than in the Union.

It is well enough to keep an eye on the fever situation, and the business with which the fellow who was arrested at Pensacola for trying to dodge the quarantine at that place is evidence that the officers are attentive to their business. The task is a difficult one, but Dr. Porter and his men deserve the praise of the people of Florida for their earnest efforts.

THE WAR GAME.

No war in Europe or Asia has ever been watched more carefully by the people of the enlightened world than has the struggle now about closed between Russia and Japan, and the people of this country are familiar with everything except the names.

The sympathy or ninety-nine out of every hundred persons in the United States has been in favor of Japan, because Russia is governed by a dissolute set of men ministering to a dough man with a crowd on his head, who only is aware of the sacreligious idea that he is ruler by divine right, because he has been told so by his lecherous henchmen, while Japan has shown herself a nation of advancement and modern ideas, and possessed of sufficient manhood to stand up and assert her rights in defiance of this monster despot, whose very existence sprung from oppression.

Russia has never been conquered, although most handsomely whipped on several occasions, having always made terms to escape such humiliation. Although she has prided herself on the valor of her terrifying Cossacks; it has been shown in the war in the Far East that they are a back number; the new ideas of the Japs being even more effective in battle than their barbed steeds and efforts at overwhelming charges that once were feared by the ignorant hordes they faced because they were declared irresistible.

All this has passed now. Russia is no longer the terrible foe she was when Ivan earned that title, and it is because she has not taken advantage of education, knowing that such would mean the downfall of her own corrupt institutions. Although not conquered, she has been severely chastised for her insolence, and Japan has won a place among the nations.

While some may scoff at the idea of civilization making nations better fighters; that it is a poor civilization, and all such remarks, it is as reasonable as anything in the world to suppose that an intellect that has been trained is much better than an added pate that has become steeped in vodka and deadened by other methods of dissipation.

While the peace terms brought about to stop the war have not been agreed to in every one of the twelve articles eight of them have, two articles were withdrawn and two compromised, which shows that the great bear has had his claws ground down sufficient to make his feet extremely sore and manifest a desire to retire from the arena. With equal resources there could be no doubt of the ultimate triumph of the Japanese, and even as it stands now she is entitled to much praise for the effort made and her achievements on land and sea.

FLORIDA CROPS.

Last week's report of the crops in the State was not so favorable as could be desired, yet there is no great damage, unless it be to cotton. The tobacco crop in many sections is immense, because of the attention given it. The weather averaged slightly cooler than the normal, with heavy to damaging rains over the greater portion of the State. In most sections farming operations have been retarded. Cotton has suffered seriously in the northern, western and some portions of the central counties, some sections reporting only half a crop; rust and dropping were of frequent occurrence. In most counties it has been too wet to harvest hay. Grass and beggarweed crops look well. There is some complaint that corn in the field has been damaged considerably. Cane, potatoes, peas and minor crops are growing nicely, and groves are reported as being in excellent condition.

Six colored females broke out of the Jacksonville jail Saturday night and walked away. What do you think of that for a jail? And nine alleged murderers are being held there.

SUNSTROKES.

It is often the wrong man who tells you how to do right.

There are what we call "good men" who are absolutely good for nothing.

The fellow who thinks he is the only person on earth is hardly ever equal to another thought.

Look out for the man who is always wanting to put you next. He may be just starting on his rounds.

The reason why some people have kept boarding house so long is because the boarding house has kept them.

Be sure the fellow is going to do a little "back-biting" before you give an adverse opinion. He may be about to praise him.

Whenever you are making an evening call and the host winds the clock and begins to disrobe, that signifies "30"—good night.

Don't ever laugh at an expected funny story before you hear the prologue. You will be suspected as being onto the plot and spoil the effect.

Women wearing bathing costumes that are too abbreviated in the skirt are prohibited by ordinance from going into the water at Atlantic City. Women who affect such simple life costumes are generally partial to dry sand baths on the sun-kissed beach, anyhow. Atlanta Constitution.

Handing Out a Hint.

School Director (to teacher)—We were thinking of having a nice motto framed and put over your desk to encourage the children. How would "Knowledge Is Wealth" do? Teacher—That wouldn't do at all. The children know how small my salary is, and they might draw conclusions of their own.

Sullivan and Booth.

It is a pathetic as well as a humorous remark that Laurence Hutton in his reminiscences attributes to John L. Sullivan. When the news came of the death of Edwin Booth the great fighter in sincere sorrow remarked, "Well, there are only a few of us left!"

PILES

I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they had entirely disappeared. I am entirely cured and feel like a new man. George Kryder, Napoleon, O.
